Die beige-packten Befestigungselemente sind für die Verwendung bei Betonmauern vorgesehen. Für weitere Mauerwerke sind handelsübliche Befestigungselemente zu benutzen. Die Eignung der Untergrundwand sowie die beigelegten Befestigungselemente sind zu prüfen. Die Montage darf nur durch fachkundiges Personal durchgeführt werden.

The enclosed fixing elements are destined for usage at concrete walls. For further masonry standard fixing elements have to be used. The aptitude of the underground wall as well as the fixing elements have to be checked. The mounting has to be done by a professional.
